

JOIN MINDWARE SEMINARS FOR A TOUR OF BANGKOK, SINGAPORE AND BALI AND LEARN ABOUT CURRENT TOPICS AND TECHNIQUES IN IMPLANT DENTISTRY!

February 26 – March 10, 2023

Tour of Bangkok, Singapore & Bali: Join MindWare Seminars in South East Asia next February for a tour like no other! The city of Bangkok straddles the Chao Phraya River and is criss-crossed by many smaller canals in every direction giving it the distinction as the “Venice of the East.” We’ll start the tour at the Grand Palace, home to the kings of Siam (and later Thailand) since 1782. The Temple of the Emerald Buddha and the Wat Po (home of the reclining Buddha) are next and among the most important in Bangkok today. Next, experience life on the river with a tour of the Thonburi Canal and before we leave, enjoy a special dinner on an antique rice barge while bidding farewell to the many golden spires of the city. The next day it is on to Singapore, the city state that was once a British trading outpost and has since become a major financial and shipping hub and one of the most densely populated countries in the world. Upon arrival, a visit to the Botanical Gardens will tackle all of the senses before taking in a water and light show against the backdrop of the Bay. The next day, visit the Gardens by the Bay with its Cloud Forest, Flower Dome and the spectacular Supertree Grove that has to be seen to be believed! That evening, explore Clarke Quay and the waterfront promenade for a bite (or several) of the many kinds of cuisine to be found. On a day off, enjoy a traditional cooking class or visit Sentosa Island for some outdoor sports. On the last day in Singapore, visit some of the different cultural neighborhoods that make up this multi-ethnic city-state. Lastly, we head to Bali for some serious R&R! We’ll start the day with a visit to a monkey forest and learn about the local grey, long-tailed macaque residents that inhabit this part of the world! Next we’ll stop at the freshwater Tegenungan waterfall and enjoy a dip in the plunge pool. We’ll end the day with a stop at John Hardy, an artisan collective, where, since 1975, they have produced handcrafted, sustainable jewelry and we’ll learn about the creative process and even do a little shopping! Finally, there will be a couple of beach days to enjoy Bali’s white sand beaches, among the most sought-after on the island and an option to extend your stay.

Dental Conference: Earn 12 AGD credits gaining a “*Comprehensive Update of Current Topics and Techniques for Ideal Implant Dentistry*” This scientifically based presentation designed for private practice will cover state of the art topics, tips and techniques in implant dentistry. A step by step approach to ideal treatment of single teeth through fully edentulous patients will be presented for long-term stability, predictability and profitability.

Learning Objectives: Confidence and predictability with state of the art implant materials and techniques; Improved practice productivity and a reduction of complications; The ability to integrate advanced techniques into private practice with simplification; Allow more patients to benefit from implant-based treatment

Speaker: Dr. Robert Vogel maintains a full time dental practice in Palm Beach Gardens, Florida focused on Implant Prosthetics and reconstructive dentistry. He conducts clinical trials and provides clinical advice to the dental implant field and has developed and collaborated on several components and techniques in use in implant dentistry today. He has lectured internationally on implant dentistry focused on precision, predictability and simplification through ideal planning and the use of state-of-the-art materials. He publishes scientific articles on implant dentistry and is a fellow of the International Team for Implantology. Dr. Vogel graduated Dental School from Columbia University in New York and completed a residency at Jackson Memorial, Mount Sinai and Miami Children’s Hospital in Miami, Florida.
